

Testimonies- House of David-A Covenant Church

My husband had an accident by falling asleep on the steering wheel, but God was so faithful for letting him come out uninjured. My daughter had pneumonia for some time now but, I thank God because she's healed and healthy. Also my husband didn't get laid off from his job in January when there was a reshuffling at his office.

My child has been sick since last year, but this thanksgiving and Christmas he was required to be placed on a breathing machine but I thank God because after Christmas, he got so much better and doesn't need the machine. I thank God for this marvelous miracle and the support of the church throughout my trial and tribulation.”
