

Testimonies- House of David-A Covenant Church

My husband had an accident by falling asleep on the steering wheel, but God was so faithful for letting him come out uninjured. My daughter had pneumonia for some time now but, I thank God because she's healed and healthy. Also my husband didn't get laid off from his job in January when there was a reshuffling at his office.

My child has been sick since last year, but this thanksgiving and Christmas he was required to be placed on a breathing machine but I thank God because after Christmas, he got so much better and doesn't need the machine. I thank God for this marvelous miracle and the support of the church throughout my trial and tribulation.”

“ I got sick and I couldn't talk . About a week later my wife's truck was in an accident but she's able to be here with me giving this testimony. Being a full time mother, worker and wife I thank God for also receiving my diploma in the mail”

“ God saved my child from a disaster! One faithful day, my little daughter told me she wanted to take a shower but I denied her request from doing so at that moment. Few minutes later, I heard a bang in the bathroom and rushed to see what had happened. Shockingly, my ceiling above the tub had colapsed and fallen into the tub where my daughter could have been standing at that moment. I thank God that didn't happen.
